

AIRLINE SUPPORT BALTIC

HEAVY REFURBISHMENT

Embraer Legacy 600

Particularly individual project of complete interior refurbishment

Our focus was to give the interior of this Legacy 600 a particularly personal touch – the owner should feel 100% comfortable in his aircraft. To keep it this way, we paid special attention to our client’s wishes, ideas and needs while working on the design.

In aviation, the quality of chosen materials plays a crucial role. Especially if we aim to recreate the feel of home miles away from it. For this purpose, we went for chic, light yet highly durable leather combining it with inviting and cozy textile work.

Scope of work

- Re-varnishing
- Re-webbing of seatbelts
- Change of seats and divan dresscover
- Reupholstering of dado panels/windowliners/headliners
- Carpet change
- Production of new curtains and protection covers
- Airstairs refurbishment NTF and paint
